

# Born to be smooth?

If only our skin could stay  
as smooth as the day  
we arrived

Unfortunately, for many of us unwanted hair is a common problem that can affect the way we look and feel. Most of us would love to be able to get rid of the unwanted hair on our face and body, or to remove those unsightly veins, pigmentations and fine lines.

At *Dermitech Laser Skin Clinic* we offer fast, effective hair removal to both men and women, using the latest world-wide laser technology. We provide a safe, professional service, giving you outstanding results with minimal discomfort. Our advanced laser machine provides quick non-invasive treatments as short as 15 minutes per appointment, convenient for lunchtime or after work. We provide treatment for all skin types and colours. *As part of our commitment to helping you look and feel your best, we are delighted to offer new clients a free consultation with one of our laser specialists:*

Please call now to make an appointment on 472 8989  
Level 7, Perpetual Trust House,  
111 – 115 Customhouse Quay, Wellington City  
Open 11am – 7pm Tuesday to Saturday  
(other times by appointment)
