

# fast and fabulous nails

now only 30 minutes from go-to-whoa

## Move into the fast lane with the new GO30 personal-fit nail system

Your customers will love the superior look and feel of the new GO30 personal-fit nail system, the latest innovation in prescription nails. Not only are GO30 nails quicker and easier to apply, they are also less expensive than traditional acrylics, gels or wraps, and are so natural looking no one will be able to tell they aren't real!

The advanced GO30 nail enhancement system achieves spectacular results as the chemical-free application is precision designed to perfectly replicate the exact width, curve and arc of the nail, and therefore eliminates damage caused by chemicals, filing and operator mishaps. The results are simply stunning nails!

For beautiful, natural-looking nails, there really is no better alternative than GO30! The service is now available from salons and spas throughout Australia and New Zealand. So, for salons who haven't already joined the GO30 nail revolution, the Salons Group offer a comprehensive salon package including a product kit and training.
