

TALK OF THE TOWN

WELCOME TO OUR LATEST ISSUE OF TALK OF THE TOWN

Jn this issue of Talk of the Town you will find a variety of articles, compiled with the best interests of our clients in mind. For example, Residential Property Investment, Home Improvement and excellent information on the residential property market in New Zealand. Also some fabulous tips on autumn gardening. The articles we've included are aimed at providing relevant information and helpful advice to our customers.

In a broad sense, the residential property market remains stable with few isolated peaks and troughs. The majority of markets are strong and steady with a small number not so buoyant. This is a reflection in terms of interest rates and their projected rise. Prices remain firm with accurately priced and well exhibited properties continuing to sell well.

If you have any suggestions regarding information you would like to be included in the next issue of Talk of the Town, our staff would welcome your call.
